

Turas Learn: what is it and what does it offer you?

Gayle Baxter

- **Senior Specialist Lead, Technology Enhanced Learning**
- **NHS Education for Scotland**

What is Turas Learn?

- **Turas Learn** is one of the applications on the Turas Platform. Other applications include SOAR, Appraisal, Portfolio and People.
- Turas Learn is a learning management system which provides access to a variety of learning resources, courses and programmes for staff across health and social care.

Accessing Turas Learn

- Turas Learn is accessed using existing Turas usernames and passwords, no separate login is required.
- For example, SOAR is accessed using a Turas account. All Agenda for Change staff have a Turas account as they are required to use Turas Appraisal.
- There are lots of different learning sites within Turas Learn are set up with different access permissions e.g.
 - Some resources and programmes are locked down to specific groups
 - Some resources and programmes are open to all Turas Learn users
 - Some resources and programmes are open to the public (like a standard website)

Making learning resources available

- NHS Education for Scotland use Turas Learn to publish learning resources across a variety of topics and subject areas e.g. Pharmacy, Psychology, Leadership and Management, Digital Skills, etc
- Health Boards also use Turas Learn to make learning resources available for their own staff – e.g. NHS Fife providing learning modules for their staff only

Types of learning resources

- Variety of different types of learning resources are hosted on Turas Learn
 - **eLearning modules** – interactive modules, with or without assessments - completion recorded in **Learning History**
 - **Learning Programmes** – structured programme of different learning resources/activities – completion recorded in **Learning History**
 - **Facilitated courses** - attendance recorded in **Learning History**
 - **Videos/animations** – engaging learning resources, not trackable
 - **Word/PDF/Presentation documents** – variety of purposes, not trackable

Digital Skills User Research

This page has information about digital and data skills learner research that was carried out in spring 2022.

Type: Learning site page

Some examples of learning resources

- Human Factors Hub: <https://learn.nes.nhs.scot/21394>
 - This hub aims to enhance the safety, effectiveness, and usability of Health and Social Care systems by providing educational resources and practical tools that support the integration of Human Factors principles across all levels of policy, practice, education, and research.
- Leadership Links: <https://learn.nes.nhs.scot/17744>
 - Leadership Links provides information about and access to learning opportunities for leaders and managers at all roles and levels in social care, social work and health. We offer an inclusive, multidisciplinary network providing:
 - Bite-sized** learning on a variety of leadership areas
 - Access** any time, any place, any device
 - Networking** with social care, social work and health colleagues and partners
 - Signposting** to other learning opportunities

Some examples of learning resources

- Digital and Data Resource Hub: <https://learn.nes.nhs.scot/71714>
 - The Digital and Data Resource Hub has been developed in collaboration with stakeholders to make it easier to find online resources that enable the development of digital and data skills across the health and social care workforce.
- National Trauma Transformation Programme:
<https://learn.nes.nhs.scot/37896>
 - This learning site summarises the key trauma training resources from the National Trauma Training Programme that are openly available to support all members of the Scottish workforce.
