Borders

There is an agreement with NHS Borders, supported by the GP Sub-Committee, that because many Borders appraisals are being undertaken by Lothian-based appraisers, the appraisers may limit their travel distances to Borders appraisals. This will often require the Borders GP to travel to the interview, although most GP Principals will get a practice visit at least once in each five year appraisal cycle. If in the future appraisers are recruited from Borders GPs, a visit to the practice will again become the norm.

A number of venues have been identified close to the boundary of the two regions which are felt offer a reasonably equitable travel split.

Suggested content for message to appraisees:

“For your appraisal I would like to suggest meeting at >>>. Could you please let me know if this is suitable for you? Alternatives are available if it is not.”
